## Technical Data Sheet

The “**Plaster Power Float VB1**”, for standard and premixed plastering, has been ideated for the professional user. It's the *essential* instrument to increase productivity, enhance the quality of finishing and bring the plastering trade into the 21<sup>st</sup> Century. **Nuova Electra's VB1** is compact, robust and light; its handle, conceived for improved grip, makes the job of the operator easier and allows for a drastic reduction of production times.

This product is in compliance with EC regulations..

Power supply:	230 V / 50 Hz
Engine (removable unit):	37 V DC, 0.5 kW
Power Rating	1000 W
Diameter disc:	400 mm
Rotating speed:	80 to 150 rpm – continuous adjustment with potentiometer
Weight mobile unit:	4 kg.
Total Weight:	21kg.
Flexible sheath lenght:	17 m.
Water tank volume:	5 lt.

### Production:

Production coarse:	60/80 sqm/hr
Production refined:	70/90 sqm/hr
Production premixed:	70/90 sqm/hr
Production scraped:	70/80 sqm/hr

### Accessories (included):

Float disc in plastic,  
2 different sponges,  
Protective eyewear,  
Toolbox,
